Interested in a Career in Environmental Studies and Sustainability?

Join the Exploring program at the Battery Conservancy. The Battery Conservancy's educational experiences take advantage of the Battery's rich history and biodiverse landscapes. These include their vegetable farm, a food forest of native plants, New York Harbor waterfront, toxin-free lawns, and the largest perennial gardens in North America that are free and open to the public every day of the year in this 25 acre park. Participate in discussions with employees of this organization to learn more about conservation management, urban farming, and nonprofit administration. Engage in hands-on activities and explore the careers in this rapidly Growing and always changing industry!
